Introduction

Interscholastic athletics is a voluntary program that provides opportunities for students to practise and refine the basic skills learned in their physical education classes. The interscholastic athlete is in a position of school leadership and should represent his team, school, and community in the highest order. The athlete must realize that competition in interscholastic athletics is a privilege not a right. Accompanying that privilege is the responsibility to conform to the standards established for athletes and athletic teams.

Schools are expected to conduct their relations with each other, at all levels of competition, in a spirit of good sportsmanship in keeping with the objectives and standards set by the Rolling River Athletic Association. Each school through its membership in the R.R.A.A., is expected to participate in the interschool athletics program according to its own needs and interests, and to the extent of its particular physical, financial, and human resources.

Entry into interschool competition carries with it the responsibility for co-operating with other schools towards the orderly and effective administration of an educationally desirable interscholastic program. To that end, each school is committed to accept the standards and procedures as put forth in the constitution, by-laws, and league regulations. Accordingly, all school personnel and community volunteers involved in the program should become thoroughly conversant with the material which follows.

Notes

1. COMPETITION STRUCTURE

The Manitoba High schools Association has divided the Province into sixteen (16) ZONES for the purposes of athletic competition. Rolling River School Division is a member of ZONE VII. This zone includes Beautiful Plains School Division and Pine Creek School Division.

2. COMMISSIONER'S ROLE

- a) will be responsible for communicating the provincial/local rules to be used at the junior high level.
- b) will insure that there are game sheets for each sport.
- c) will provide a Final report of results.

3. CAFETERIA

It will be the RESPONSIBILITY of the HOST SCHOOL to provide a cafeteria service during ALL tournaments and scheduled athletic contests.

4. SUPERVISION

- a) Host school supervisors have complete jurisdiction over any student (visitor and/or host school). This is not to imply that visiting schools do not require supervisors, but rather is meant as a clarification. Visiting athletes and spectators are NOT immune to host school regulations. Courtesy is an essential characteristic for every school ambassador. A sense of decency must be maintained by ALL students at ALL times. Students must be obedient to their supervising teachers and coaches.
- b) Each school has its own regulations, but, in general, athletes and spectators are encouraged to remain at the site of the athletic function. It would be appreciated if the students would patronize the school cafeteria rather than "wandering" downtown.

5. DRESS CODE

Athletes and spectators are expected to dress appropriately for the occasion. Hopefully their attire appearance will be a credit and a compliment to themselves and to their school. Athletes will be required to meet the guidelines as set by the Commissioner. Only athletes meeting the dress code will be allowed to compete.

General Information - Con't

6. TRANSPORTATION

Buses are available through the Transportation Supervisor for all sports trips. Schools are expected to requisition all trips at least two (2) weeks in advance with the exception of playoffs.

Each school has a transportation budget within which it must operate. Consequently, it may be necessary for the Principal to "ration" the exhibition trips in a particular sport to guarantee a balanced program. All athletic teams are expected to use the Division Bus Service unless numbers indicate it would be more economical to travel by car. Cars may only be used in a controlled situation with the Principal's approval.

*UNDER NO CIRCUMSTANCES WILL A STUDENT BE ALLOWED TO DRIVE.

7. SMOKING POLICY IS ACCORDING TO DIVISION POLICY.

Guidelines for Community Coaches and Student Coaches

Community Coaches may be an integral part of a school's interscholastic program. Community Coaches will most likely be using school facilities and equipment, therefore, they need to be aware of Divisional policies and guidelines.

Student coaches may provide valuable assistance to a sports program. We recognize the value in leadership development; however accountability, especially supervision, is a major concern. Student Coaches will be expected to follow R.R.A.A. guidelines. Expectations should be outlined in advance by the athletic director or teacher supervisor.

- * Community Coaches and Student Coaches must follow R.R.A.A. guidelines. Failure to follow the R.R.A.A. guidelines may result in being removed as coach of a team. All coaches should be supplied with a copy of the R.R.A.A. handbook.
- * A staff member will be assigned as a supervisor to accompany the team to league games, exhibition games and tournaments (practises will be at the discretion of the Principal). Staff members will be representatives of the school. Their responsibilities would include bus requisitions, uniforms, messages between coach and athletes through school and enforcing any school "participation" policies.
- * Community Coaches will prepare in consultation with the school an itinerary of practise times, game dates, and tournaments for athletes, parents, and school administrators.
- * Community Coaches will accept and respect decisions by the school administration in regards to student eligibility and general school policies.
