

ROLLING RIVER SCHOOL DIVISION POLICY

Teacher Supervision and Evaluation

GDNA/P

The Board of Trustees of Rolling River School Division believes the supervision and evaluation of division educators is an integral part of ensuring the delivery of a quality education for all students. Primary objectives of an effective supervision program include improved instruction of students, quality learning experiences, the promotion of professional growth, and support of school and divisional strategies.

The Principal is responsible for the supervision and evaluation of all teachers in the school.

The Superintendent and his/her designate shall ensure that effective supervision and evaluation of instructional staff are in place in all division schools. The Superintendent's department may occasionally become involved in the supervision of teachers, but the primary responsibility for supervision remains with the Principals. The Superintendent or a designate shall approve expectations and procedures utilized to supervise and evaluate teachers. Procedures and expectations are provided in the RRSD Teacher Evaluation/Supervision for Growth Manual.

Supervision and evaluation of teachers must be an on-going process and evidence of performance reviews and professional growth shall be documented, reported and retained in the teacher's personnel file.
