

ROLLING RIVER SCHOOL DIVISION POLICY

School Administrator Supervision and Evaluation

GDNB/P

The Board of Trustees of Rolling River School Division believes the supervision and evaluation of school administrators is an integral part of ensuring the delivery of a quality education for all students. Primary objectives of an effective supervision program include improved instruction of students, quality learning experiences, the promotion of professional growth, and support of school and divisional goals.

The Superintendent is responsible for the supervision and evaluation of all Principals in the Division.

The Superintendent and his/her designate shall ensure that effective supervision and evaluation of Vice-Principals are in place in all division schools. The Superintendent's department may occasionally become involved in the supervision of Vice-Principals, but the primary responsibility for supervision remains with the Principals. The Superintendent or a designate shall approve expectations and procedures utilized to supervise and evaluate school administrators. Procedures and expectations are provided in the Rolling River School Division Administrator Evaluation/Supervision for Growth Manual.

Supervision and evaluation of school administrators must be an on-going process and evidence of performance reviews and professional growth shall be documented, reported and retained in the school administrator's personnel file.
